HOGIES Mediview KEELER Spectacle Mounted Loupes

The new versatile and fashionable Mediview spectacle frames are now available from Designs For Vision.

Mediview is a magnetic platform integrated with a modern spectacle frame that accommodates KEELER loupe systems, BFW and LED surgical illumination.

Existing KEELER loupes and other brands can be upgraded to Mediview.

The Mediview system will allow the user to employ spectacle prescription and eye protection, and can be used in both consulting rooms and surgery.

The unique bridge design ensures comfort and positioning of the loupes.

Standard Spectacle frame and headband options.
